When I first saw this title come across the front page I thought to myself, "what a BAD or SICK game for someone to make-- SAD!" But then I actually played it, and I can't lie.... it's hot as hell. From the majestic writing, to the patriotic art, this game is nothing short of TREMENDOUS!

I absolutely LOVE the way the developers illustrated my bodacious bod. And not only do the romance scenes OOZE sensuality, they positively DRENCH the player in a dripping, drizzling glaze of sticky eroticism.

Way to put the TRUMP back in LGBT!. What can I say, this game is flamin hot! Pretty sure I almost p'd myself laughing, and the graphics are tight. Well f*****g done.

In conclusion, this fire game easily deserves 10 out of a possible 10 snacks on the snack-o-meter, and that's a Chester McCheese guarantee.. FUNNIEST and WEIRDEST game on Steam! Definitely worth playing and you'll be laughing throughout the whole thing. Clever and entertaining... who will you end up with? Pls put Connie Chung in the sequel!
